

*G.A.P. Federal
Credit Union
Charity Golf Outing*

It is with great pleasure that I present to you information regarding the *5th Annual G.A.P. Federal Credit Union Charity Golf Outing*. It will be held on the 12th of September 2015 at the Summit Golf Course in Cresson, PA.

The purpose of this annual outing is two-fold. First, to each year support a local area charity and second will be for each of you to promote your business or organization. This year you will have the opportunity to contribute your talent and treasure to provide assistance to the **Best of Friends -- A Therapeutic Horsemanship Program for Persons with Disabilities**. (See attached information sheet.) And you will also have the opportunity to *market* your business or organization to other members of the G.A.P. Federal Credit Union family.

I have provided a list of items that you will have the opportunity to sponsor. If it isn't financially possible to sponsor one of the selections, please feel free to provide your company's brochure. We will be putting together an informational packet filled with brochures that you can use to market your company or organization.

The winners of the Outing will be presented with a beautiful traveling trophy that will be presented during the closing events dinner. Hope to see you in September.

If you have any questions please contact myself or Diane Lopez, CEO G.A.P. Federal Credit Union at 814-535-4165.

Best of Friends Therapeutic Riding Program
Horseback riding for those with
emotional or cognitive challenges.
www.bestoffriends.org

The Best of Friends program provides therapeutic riding for people with disabilities in the Cambria and Somerset Counties area.

The Best of Friends program has through its 28 year history provided not only therapeutic riding which include physical and psychological benefits for its various students over the years, it has also provided a rewarding learning experience for its many volunteers. Often times the volunteers in the program have not been exposed to various disabilities and their effects on people. It provides a forum for non-challenged people to find out how special people with disabilities truly are and how they bravely deal with their various challenges on a daily basis. Additionally there are numerous volunteers who have not had the opportunity to work with or be around horses. The special training that these horses receive helps people to see how helpful these animals can be for people with disabilities. It also seems to be therapeutic for the volunteers as well!! Proudly this program helps to *bring the best of people and the best of horses together* to do a very rewarding service.
